

MARRIAGE CANOE

Options for those in the canoe:

1. Both can attempt to steer
2. Front can steer
3. Back can steer
4. No one can steer

Questions to consider:

1. When it comes to a canoe, how was it designed to function?
2. What role does the one who sits in the front play?
3. When it comes to water hazards, who's the first one to see the water hazard coming?
4. What must the one in the rear do when it comes to hazards?
5. What must the one in the front do when it comes to hazards?
